Installation Guide

1. Please connect EMPS-32R1 to onboard mPCIe slot.

2. Please connect SSD in EMPS-32R1 SATA slot.

3. Press 'Ctrl-r' to enter RAID menu during this scene.
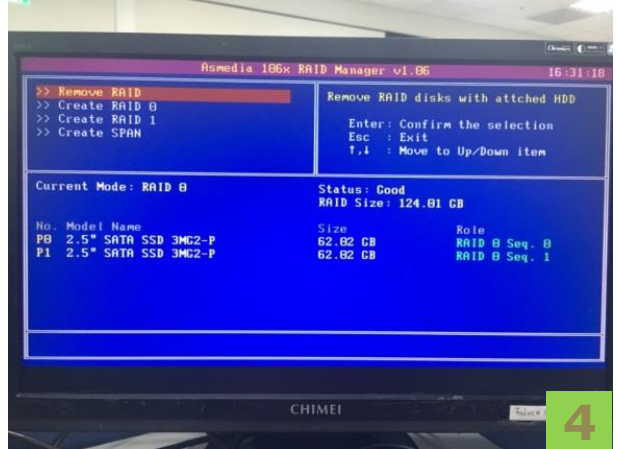

4. You can config and check RAID status in this RAID menu before installing OS.

5. Please use slide switch J3/J4 to change RAID mode as above setting list.

6. Please push tact switch 3 seconds for reset then check RAID menu in step 4 to see if it takes effect.
